Are Active and Higher.

RUMORS AFLOAT OF INCREASED DIVIDENDS

Western Railways and Metal Shares Are Lower on Profit Taking-Money Market Continues Ensy.

NEW YORK, March II.—Yesterday's sudden spurt of 7 points in Chesapeake & Ohio ied to a much excited conjecture as to the cause and was the stimutating influence in today's stock market. Suppositions as to the basis for the movement were conflicting and various. Yesterday's rumor of an intended increase in the dividend to 4 per cent was a continuing factor and gave rise to the general theory of a policy of more liberal dividend dispursements on the part of railroad companies under the Pennsylvania domination. This report was suppiemented by a story of a pian to form a new railroad system with an outlet from the middle west to the Chesapeake & Ohio Atlantic terminus. This story extended the speculative excitement into the middle western Vanderbilt stocks, which already have affiliations with the Cincinnati & Ohio. If to the stocks thus affected is added the southern group, which was temporarily strong and active, the limits of the active movement in today's market will be generally defined.

The rest of the market was comparatively quiet and was under pressure of realizing at many important points. Cincinnati & Ohio itself was sold to take profits and its pocasional railles did not carry it at any time to yesterday's high level. New York Central and Pennsylvania shared to the full in the movement in their subsidiary stocks. The Pacifics, Reading, the Canadian group, the metal stocks and some others which have been prominent in the week's speculation were heavy throughout. The profit taking in them affected sentiment and increased the disposition to realizing was decidedly irregular and with net changes mixed, in spite of a great show of strength during the session.

The complexion of the bank statement had been quite accurately for seen and the NEW YORK, March II .- Yesterday's sud-

changes mixed, in spite of a great show of strength during the session.

The complexion of the bank statement had been quite accurately for seen and the small changes in the various items indicated no change from the present eary condition of the money market.

Foreign Financial.

LONDON. March 11.—Supplies of money were more abundant in the market today and rates were easier. Discounts were firm. Prices on the Stock exchange were nrm. Consols were strong and home rails were attractive. Americans were firm and a good amount of business was transacted. Chesapeake & Ohio was the sensational feature and lifted up the whole list. Foreigners were inactive. Japanese haidened on the war news. Imperial Japanese government 6s of 1904 were quoted at 1.05.

PARIS, March 11.—The tone on the Bourse today was heavy, the situation in the far east causing a general depression. Russian imperial 4s were quoted at 88.80, and Russian bonds of 1904 at 5.02.

BERLIN, March 11.—There were no marked changes in any of the departments on the Bourse today. Foreign Financial.

Treasury Statement. WASHINGTON, March 11.—Today's statement of the treasury balance in the general fund, exclusive of the \$1.0,000,000 gold reserve in the division of redemption, shows: Available cash balance, \$142.335,175, gold, \$57,907,936.

Bank Clearings. OMAHA. March 11.—Bank clearings today were \$1,491.833.20. The clearings for the con-responding day of 1904 were \$1.244.475.05.

CATTLE-There was no particular change in the cattle market here today, about the usual Saturday conditions prevailing. For the week receipts have been a trifle heavier than last week, the gain amounting to about 3,000 head. As compared with the corresponding week of last year there is a gain of about 2,000 head.

The market on beef steers has been in very satisfactory condition all the week, the demand apparently being in excess of the supply. As a result the tendency of prices has been upward, with a net gain over the close of last week amounting to about 15,25c. The improvement has been general on all kinds that would do to kill. As compared with the low time present prices are about 75c per hundred higher. The top price of the week was \$5.55 and good to choice grades may be quoted from \$5.15 to \$5.55. fair to good from \$4.50 to \$5.15 and the shorter-fed varieties from \$4.40 down.

OATS—Lower; No. 2 cash. 42c; track, 33c; May, 80%c; No. 2 white, 254c.

Kansas City Grain and Provisions.
KANSAS CITY, March II.—WHEAT—May, \$56.4065c; July, 8074c. Cash: No. 2 hard, \$1.0261.034;; No. 3, 11.0061.62; No. 4, 800 floor pays to the stain they did a week ago. They may be quoted from \$3.50 down.

BELTERS.
No. 2 red to \$5.15 and the shorter-fed varieties from \$4.40 gown.

The cow market has also been active all the week, with the tendency of prices upward. The gain over the close of last week amounts to about the same as on steers, namely, 15@25c, or 75c over the low time. The common kinds have sold to choice grades, but of course the demand has been greatest for the choicer classes. Good to choice grades may be quoted from \$3.50 to \$4.55, with carries prices to the high point of the season to date. Good to choice grades have sold from \$4.00 good for \$4.50 good from \$3.50 to \$4. The common kinds have not been as brisk as the choicer loads, but still they have sold a little higher than they did a week ago. They may be quoted from \$3.50 down.

GRAIN AND PRODUCE MARKET

Government Report is Rather Bearish on All Grains.

WHEAT MARKET GOES OFF AS A RESULT

Corn Reserve Larger Than Expected, Bulls Feel Situation Makes Corn Good Above Present Flgures.

OMAHA, March 11, 1905.

OMAHA, March II, 1805.

The government report only deals with the amount of grain in farmers hands March I. Wheat farm reserves are given at 111,000,000 bushels, or 20.1 per cent of the crop, compared with 135,000,000 bushels, or 20.2 per cent, in 1903, and 175,000,000 bushels, or 23.2 per cent, in 1902. Corn reserves are given at 254,000,000 bushels, or 34.7 per cent, in 1902. Corn reserves are given at 254,000,000 bushels, or 36.4 per cent, in 1903; 443,000,000, or 29.1 per cent of the crop, compared with 839,000,000 bushels, or 36.8 per cent of the crop, in 1902. The oats reserves are given at 347,000,000 bushels, or 38.8 per cent of the crop.

The report is said to be about what was expected in wheat, but the break in the May this morning shows the buils looked for the reserve to be under the hundred million. By noon today the May reached \$1.11%, the lowest point since the middle of December. The high point Friday was \$1.14% and the low \$1.13, so that the slump in one day amounts to 3 cents. The opening and high point of the May today was \$1.13%. The July kept pace with the early delivery month, falling from 94%c, the high point of Friday, to 31%c. The September at Chicago Friday night sold on an export parity with Liverpool. The northwestern cars are 200 today. 32 hast week and 336 last year. The Australian shipments are heavy, being 1,82,000 bushels, asgainst 1,62,000 bushels has year. Cables are 4 lower. No decision will be given on the Oregon red wheat until early next week.

The government report shows the reserves a little larger than was expected, and the same is true of oats. The corn market, however, did not show any effect of the statement this morning; it had been fully discounted, anyway. The cats went down about 4/c. W. H. Bartlett says of corn that the March report in 1903 showed farm reserves of 1,050,000,000 bushels of the Oregon red wheat until early next week.

The government peport shows the reserves a little larger than at present. In the former year the corn colls at 58c in July and Aug

GOLDFIELD

The Transvaal of America

Twenty-Five Millions Now on the Dumps

The greatest gold mining camp in the world today is Goldfield, Navada-surpassing the early times in Cripple Creek and the Klondike. Goldfield is one year old-as time is counted by the calendar; but let us reckon from results.

Within one short year Goldfield has produced upwards of three and one-half millions of gold ore-which is a million more than Cripple Creek yielded the first three years. Some of the ore beds are so rich with virgin gold that claim-holders

have built stockades around their property to prevent the ore being carried away by dishonest persons something heretofore unbeard of in the history of gold mining. In calculating the possibilities of this Western Eldorado it should be remembered that it is only within the past thirty days that the first

stamp mill in Goldfield was ready to begin operations—the ore having to be treated by the most primitive processes. It is conservatively estimated that there are now twenty-five millions' worth of ore on the dumps-which, with the enormous yield of the various claims, promises a golden barvest for the year 1905 that will be the

wonder of the world Those who take an optimistic view of the situation say that Goldfield is good for at least

A Billion Dollars

During the next five years-while some even talk of over-production. But, aside from these seemingly wild statements, conservative men-oldtime miners, who were through the thick of the rush to Cripple Creek and the Klondike-claim they never saw such rich "pay dirt" as is being dug out of the very streets of Goldfield!

Three young men from the Middle West landed in Goldfield with less than fifty dollars in cash-and no other resources except health and a determination to succeed. Without any knowledge of mining, they took up claims that men of

more experience had passed by as worthless, but which proved to be worth more than a million dollars. dividend-paying basis within the shortest possible space of time.

newspapers teem with reports of rich finds. The people are simply impregnated with the desire for gold. A Los Angeles minister, who found himself stranded in Tonopah,

delivered lectures to get money enough to reach Goldfield. He got there-staked out six claims-two of which he sold later for enough to make him independent for life, and his additional properties may bring a million more.

It is estimated that between thirty and fifty thousand people will go into Goldfield within the next three months.

The Early Settlers Secured the Best Claims Our representatives, composed of expert mining men, under the direction

of a capable business man, were among the first to reach Goldfield after its discovery. We own or control some of the richest claims in Goldfield-besides being fiscal agents for the great Mount Whitney Group, in Inyo county,

Shares in the last Goldfield company financed by us were over-subscribed inside of thirty days-and no more stock is for sale at any price. Many of those who go to Goldfield have to withstand toil and hardship-and it is only men of the strongest constitution who are able to

But You May Share in Goldfield's Undug Millions Without the Danger of Exposure

and Fatigue of Travel We are now organizing a company for the purpose of developing a number of rich Goldfield claims, and YOU may join with us as one of the CHAR-

These claims are located within the proven tract of big mines, and show every indication of becoming bonanzas. The company will be incorporated under Arizona's favorable laws, and will be capitalized for 1,500,000 shares, at a par share, each fully paid and forever non-assessable. A limited number of these share are offered—just enough to secure sufficient funds for rapidly pushing development work—in order to put the property on a

The exodus from Los Angeles to Goldfield increases daily. The No debts will be incurred, as the money from the sale of the stock will be sufficient for all emergencies—under the direction of a reliable, economical and experienced Board of Directors, to be selected from among those subscribing for stock.

21 Cents a Share

The promotion or charter member price of the stock will be 21/2 cents a share (par value \$1.00) or twenty-five dollars per thousand shares (par

value \$1.000). No sale will be made for less than 500 shares and no subscription will be accepted for more than ten thousand shares-giving an opportunity

for more stockholders to get in at the formation price.

The incorporation of the company is now in process of formation, and very shortly after the preliminary work is concluded there will be a decided advance in the price of the stock.

We are putting our own money into the proposition and advising our friends to do likewise. If you act now, YOU can get in on the ground floor with us: but we reserve the right to reject your subscription and return the funds, providing the allotment of shares is disposed of before

Not Later Than March 18th

In order to be safely within the time limit, your order, with remittance, should be mailed on or before the 18th of March.

But if you are not fully satisfied of the wonderful possibilities of this proposition, and are willing to take chances of obtaining stock later-(at a higher price)-we will SEND YOU FREE a book about Goldfield containing full description and 25 full-page pictures of the camp.

Concerning Our Responsibility

We are a corporation, located in Los Angeles, Cal. Our business is buying and selling minines, acting as fiscal agents and financing companies for the purpose of developing mineing properties.
